# LARSON Insurance INC

*"INSURING WHAT MATTERS MOST TO YOU"*

*It is recommended people visit their doctor yearly for a check up.*

*However, people usually cannot remember the last time they had a conversation with their insurance agent.*

*Insurance is typically a topic people shy away from, but it should be something people focus on. The world we live in is very dynamic. Life is changing rapidly. To guarantee one is not over-insured or under-insured but properly insured, they should have a conversation with their agent at least once a year. If your insurance agent has not contacted you within the past 12 months, please contact Eric Larson at Larson Insurance, Inc. to discuss all of your insurance needs.*

*He will be happy to take the time and have a conversation about all of your insurance needs, which include:  
commerical, farm, home, auto, health, life, long-term care, and Aflac.*

*Thank you for your business!*
